

Zamza Salim

Researcher • Community Builder • Ambassador • KOL Manager

About Me

Started my crypto journey in 2017 as a YouTuber and Community Owner, driven by a deep passion for the crypto industry and a strong commitment to advancing Web3 growth in Indonesia.

As a skilled content creator, community builder, and KOL manager, I am well-connected to over 200 communities and KOLs. I leverage these connections to bridge projects with users and KOLs in the Indonesian Market.

I continuously learn and stay updated on Web3 developments, both on-chain and off-chain, to remain relevant as a social media content creator and to better serve my clients.
